

SDE Candidate - ElevateBox Assignment

Phone: +91 8790513762 | Role: SDE Intern (Banjara Hills, Hyderabad)

Engineering Summary

Full-Stack & Voice AI Engineer specializing in low-latency real-time voice orchestration, multilingual speech systems, and conversational AI sales qualification pipelines.

Featured Project: ElevateBox Autonomous Voice Assistant

- Built autonomous outbound voice agent with sub-second latency and room noise ambience.
- Implemented trilingual speech understanding for Telugu, Hindi, and English with code-switching.
- Engineered mid-call asynchronous WhatsApp tool dispatch upon detecting high buying intent.
- Built IST colloquial callback scheduler parsing vague expressions ('tomorrow morning').
- Developed post-call synthesis engine extracting exact conversation context, budget & timeline.
